

Identifying Temporary Password to the new ImpactSIIS/iWeb

ImpactSIIS.org will soon be replaced by a new system. The data and many of the functions will remain, but the look and feel will be different.

1. Your user name will remain the same; for most people that is FirstName.LastName
2. Your one-time password will be the answer to your secret question that you set up with ODH when you first connected to the ODH Gateway or www.ImpactSIIS.org
3. How can I find that answer? Go to <https://odhgateway.odh.ohio.gov/>
4. Enter the username and password that you have been using to access ImpactSIIS.

The screenshot shows a web browser window with the URL <https://odhgateway.odh.ohio.gov/>. The page header includes "Prod", "Build: 20120229", "V 3.1", and the "Ohio.gov | Department of Health" logo. The main heading is "ODH Application Gateway". Below this is a "Login:" section with a welcome message: "Welcome to the Ohio Department of Health's (ODH) Application Gateway. This Gateway is provided to allow a single point of access to all ODH applications." It instructs users to enter identity information and click the "Login" button. There are two input fields: "* User name:" and "* Password:". The password field is masked with dots. A "Login" button is located below the password field. There are also links for "I forgot my password" and "I forgot my user name". A note at the bottom states "* Indicates required field".

5. Click the box that says 'Personal Info'.

The screenshot shows the "Applications:" section of the ODH Application Gateway. It includes the same header as the previous screenshot. The main heading is "Applications:". Below this is a message: "Below is a list of applications that you currently have security access to. Click on a link below to access that application." There are two buttons: "Personal Info" and "Log Out". A large red arrow points to the "Personal Info" button.

6. Expand the dropdown list for 'Secret Question' and select the question. It may be a different question than the one you see below.

7. Review your answer. Make sure you can remember and spell it. Do not change the answer or the question; this information has already been loaded to the new system. The question itself is not needed.
